

Westlaw International

Westlaw International is the premier online research tool for the international legal community. It enables legal professionals to retrieve cases, statutes, news and journal articles and many other documents from a vast global library of legal, news and business material in a matter of seconds.

Giving you direct access to leading content from renowned sources around the world combined with a highly sophisticated online platform, Westlaw International delivers on five key fronts:

Innovative

Powerful, intuitive technology allows you to find what you are looking for with speed and accuracy

Quality

The highest standards in the end-to-end customer experience and quality of content

Trusted

A unique collection of the world's most respected, authoritative legal, news and business information

Easy-to-use

All the legal, news and business information in one convenient place, cross-referenced and searchable across a powerful platform

International

Leverages the enormous power and resources of the Thomson Corporation, a world-wide organization with strong, local representation in different countries

Isn't it great when you find what you are looking for
