

# REUTERS MESSAGING COMPLIANCE MANAGER (RMCM)

ONE-STOP-SHOP COMPLIANCE FOR REUTERS MESSAGING

RMCM is a flexible, hosted service by Thomson Reuters that logs and maintains communications conducted via Reuters Messaging (RM).

RMCM securely logs all types of RM traffic, including that from mobile and Web-based users, enforces corporate policies, and mitigates business and legal risks with long-term archiving.

## MINIMIZE RISK AND REDUCE COSTS

### Address regulatory requirements

- SEC rule 17a-4
- FINRA (NASD) 3010 and 3110
- Sarbanes-Oxley
- MiFID
- FSA Conduct of Business Rules and Record Keeping (Rule 5.54 and Appendix 18)

### Reduce your total cost of ownership

RMCM is a fully hosted solution that eliminates the need for costly hardware – and associated software – acquisitions and the time required for deployment.

### Reap the benefits of using RM, faster

RMCM is the only solution that provides compliance support for the latest version of RM, including premium features. And since RMCM requires no deployment, users can start using RM without delay.

### Enjoy Increased Security and Service Reliability

Thomson Reuters robust architecture and secure data center, tamper-proof WORM storage\*, and global support offer increased peace of mind.

## KEY FEATURES OF RMCM

### Logging

- Logs all RM conversations and chat room sessions
- Maintains logs of all RM content in both intra- and inter-company conversations, as well as sessions with public IM users (AOL® Instant Messenger™, Yahoo® Messenger, Microsoft® Windows Live™ Messenger)
- Support for RM Premium capabilities, including Chat Rooms, File Sharing, Forms, ScreenShot

### Monitoring and Reviewing

- Advanced search and retrieval functionality for all types of RM content
- Keyword and phrase scanning with integrated random sampling
- Secure Web-based interface

### Archiving\*

- Automated download of transcript logs
- Secure message transport (HTTPS, SSL, TLS) and storage (AES & RSA encryption)
- Logs accessible for 90 days. Extended archiving option available
- Message conversion for in-house or third-party archiving
- Online Audit tools and eDiscovery support
