

# THOMSON REUTERS DATASTREAM

ANALYZE MACROECONOMIC TRENDS AND HOW THEY IMPACT YOUR BUSINESS

Investigate the correlations and relationships between global economic indicators and asset classes with Thomson Reuters Datastream. Leverage our industry-renowned data to explore macroeconomic trends and the impact they may have on your company and industry.

Thomson Reuters Datastream is a global research solution that enables sophisticated time series analysis across a broad range of financial instruments. Our unrivaled set of historical financial information allows you to:

- Analyze and map historical trends and relationships
- Stay on top of market events
- Uncover patterns using rich historical data
- Explore relationships between data series with a powerful, customizable charting application

With Datastream you have the ability to blend together different information and better understand how indicators in one field impact another. The depth and breadth of data includes:

- Time series information for over 2 million financial instruments
- Securities and indicators for over 175 countries in 60 markets
- More than 75,000 active (and 30,000 inactive) securities covering 64 developed and emerging markets
- Global equity indices that span over 25 years of daily history and cover 38 markets, 16 regions, and 92 sectors
- Over 100,000 fixed-income instruments and over 200,000 warrants, certificates and convertibles covering 32 markets

Access this information in the way that works best for you. Available as a datafeed, stand-alone service, or an add-on to Reuters 3000 Xtra and Thomson ONE, the comprehensive information and analytics in each solution are outlined here:

## DATASTREAM ECONOVIEW

To stay on top of the markets and uncover trends, Datastream Econoview includes:

- **Macroeconomics** – Access over 500,000 time series with indicators for 175 countries and history back to the 1950s.

- **Bond and equity indices** – Locate more than 100,000 indices, including equity benchmarks such as MSCI, FTSE and S&P; bond indices such as JPMorgan, Iboxx and Citigroup; government bond indices; and proprietary Datastream indices including global region, sector and aggregate indices.
- **Commodities** – Easily search through 3,000 spot prices plus major indices from JPMorgan and Goldman Sachs. Leverage our strong coverage of metals, agriculture, chemicals, forest products, and semiconductors. Energy information is from Platts and includes 129 categories of assessments and over 25,000 individual series.
- **Futures** – Utilize our database of over 85,000 contracts with prices and other trading-related information. Retrieve static data such as tick sizes, expiry dates and tick values.
- **Bonds** – Uncover bonds, warrants, convertibles, CDS, domestic and international issues, including historical price and volume details.
- **Interest and exchange rates** – Discover rates for over 45 currencies, including UK pound and US dollar; and leverage comprehensive emerging markets coverage.

## DATASTREAM PREMIUM

For more thorough analysis, receive all of the information and tools available in Datastream Econoview, as well as the following:

- **Equities and fundamentals** – Retrieve data sourced direct from exchanges, suppliers, and published reports. Includes adjusted & unadjusted pricing, volume, market cap, earnings, dividends, financials, fundamentals, ratios, valuations, forecasts, and more.
- **Unit and investment trusts** – Obtain pricing and dividend coverage for 14 countries, including the top 5 European Funds Markets, giving a total coverage of 120,000 funds, including 30,000 UK trusts. Daily calculated asset values are also included.
- **Options** – Find extensive coverage on over 2,000 contracts and over 300,000 series. Both trading derived data such as implied volatility and static information are available.
