

THOMSON REUTERS SPREADSHEET LINK

MICROSOFT® EXCEL ADD-IN FOR AUTOMATED COMPANY ANALYSIS AND CUSTOM MODELING

Are you spending more time compiling and verifying data, rather than analyzing it? With Thomson Reuters Spreadsheet Link, you can access premium information from across Thomson Reuters in an Excel environment, providing you with the historical, current and forecast data you need to conduct robust modeling and analysis.

Leverage our sophisticated and easy-to-use Excel add-in to:

- Conduct detailed company evaluations, benchmark comparable companies, analyze valuations, or generate custom aggregates
- Construct custom models, use pre-built templates or populate your proprietary spreadsheets—and have them dynamically update
- Set precise screening criteria and create unique data items or expressions
- View the source of each data item

KEY FEATURES OF SPREADSHEET LINK

Construct Excel models according to your exact requirements, using the following information and tools:

- Data sets – Access the following information* in Excel:
 - Worldscope fundamentals (full history including re-statements)
 - First Call consensus and detailed estimates
 - Daily First Call historical mean estimates
 - Current and historical financial ratios
 - Thomson Reuters Datastream equity and index pricing
 - Ownership information
 - FX rates (spot rate history and forward rates)
 - Real-time market pricing**
- Fully integrated screening – Uncover new opportunities or comparable companies using our advanced company selection tool.

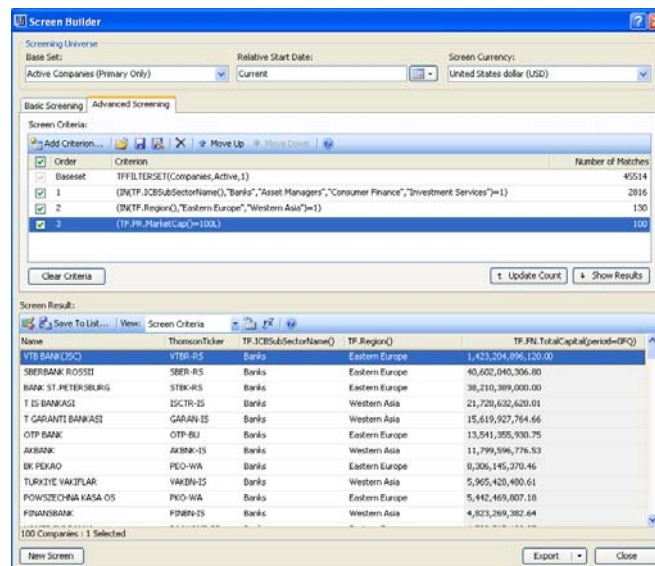

*Dependent on data and desktop contracts

**Subject to Exchange Agreements

- Expression builder – Define, save and share your own custom variables utilizing our extensive catalog of data items and analytical functions.
- Aggregates builder – Produce custom indices with various weighting methodologies for precise benchmarking.
- Click-thru audit – Drill down to source documents for company financial data.
- Report builder – Bring together single period and time series data to create pre-formatted tables for template and model building.
- List builder – Quickly upload and share lists of companies between other Spreadsheet Link users.
- Chart builder – Utilize Excel's charting capabilities to quickly bring together Thomson Reuters data in a graphical format.
- Template library – Access a repository of pre-built models to save you time.

WHY THOMSON REUTERS

- We provide the largest collection of business information in the world. Our global content is gathered and analyzed by regional experts.
- Access our proprietary information and tools via the Web, datafeed, Excel add-in or mobile device.
- More than 6,000 corporations rely on our services which are backed by outstanding local client support.

Find opportunities or benchmark comparable companies using a sophisticated and user-friendly screening engine across the full universe of Thomson Reuters data.

AVAILABILITY

Spreadsheet Link is included with the following Thomson ONE solutions:

- **Thomson ONE Corporate Intelligence** – Offers comprehensive market and peer analysis. Access market data, company profiles and financials, broker research and estimates, StreetEvents Transcripts and Delta Reports, and much more.
- **Thomson ONE Corporate Development** – Provides in-depth deals analysis needed to fuel your growth strategy and assess your risk across banks, partners and clients. Analyze corporate guidance, equity ownership, SDC deals data, and VentureXpert private equity profiles and transactions.

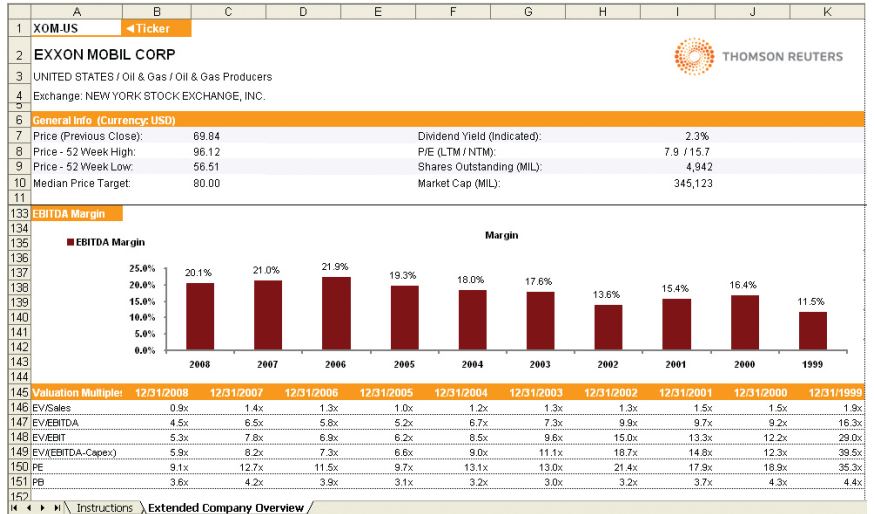

PRE-BUILT MODELS THAT SAVE YOU TIME
