

DISEASEDEX® EMERGENCY MEDICINE

DISEASEDEX Emergency Medicine, part of the Micromedex® solutions from Thomson Reuters, supports rapid diagnosis and treatment in acute care settings.

With DISEASEDEX, you can offer clinicians a trusted tool that:

- Provides critical information in a quick summary format, with links to in-depth data specific to urgent and acute care
- Covers clinical presentation, laboratory and diagnostic findings, and therapeutic modalities
- Includes Prehospital Care Protocols offering guidelines from patient history to advanced life support
- Features a broad range of Emergency Medical Abstracts (EMAs) written by recognized thought leaders

When minutes count, DISEASEDEX Emergency Medicine provides instant access to critical data on everything from common emergencies, like bradyarrhythmias and blunt neck trauma, to unusual acute disorders. Written by practicing clinicians, DISEASEDEX Emergency Medicine provides immediate evidence-based answers for the “what, when, and how” of emergency care.

NURSES

Rapidly find facts consistent with the entire medical team’s approach. Consult DISEASEDEX Emergency Medicine to find protocols for monitoring patients and condition-specific equipment needed to prep the ER.

PHYSICIANS

When time is of the essence, DISEASEDEX Emergency Medicine supports quick diagnosis and treatment decisions for critically ill patients. The data comes from the latest medical information, is fully referenced, and evidence-based.

BENEFITS

- Provides unbiased data written by practicing clinicians
- Covers disease states, treatment guidelines, and standards of care
- Makes critical knowledge available at a glance, with links to in-depth information

FEATURES

- Fully referenced, evidence-based information
- Consistent document outline
- Easy-to-scan list, table, and graphic
- Frequent updates

SUMMARY INFORMATION

ClinicalPoints® summary documents save time by allowing clinicians to quickly grasp the most critical aspects of patient diagnosis and care. Clinicians also have instant access to a higher level of detail directly from the summary document.
