

REUTERS WORLD NEWS SERVICE

COMPLETE VIDEO COVERAGE OF INTERNATIONAL NEWS

Reuters World News Service is our core television product covering every major international news event. Our on-the-ground television crews work with 200 Reuters bureaus globally to quickly deliver trustworthy journalism and high quality news video to the world's broadcasters.

We transmit footage from the field to our London newsroom and other regional news hubs – including Singapore and Washington DC. All stories are edited, scripted and packaged for distribution via Reuters World News Express file delivery system through dedicated satellite network. Live video of major news supplements video files.

Reuters World News Service helps save broadcasters time and tell the whole story. All videos include detailed shot-lists, rights information, scripts and background. You can mix and match your subscriptions to Reuters World News Service with specialist content, such as entertainment, domestic and regional news.

BENEFITS

- Access to every major news event via the breadth and depth of Reuters global reporting infrastructure
- Rolling video news service means fresh footage is only minutes away
- Live flashes for breaking news
- Skillful editing by experienced producers and journalists. High quality, long edits maximize flexibility for broadcasters
- Natural sound peppered with usable sound bites
- Easy-to-use scripts and detailed shot-lists minimize turnaround time
- Dependable 24-hour access from all regions of the world, via six dedicated satellite paths and permanent uplinks
- Coverage diaries and advisories to aid program planning
- Experienced journalists on hand to help 24/7

FEATURES

- Hundreds of journalists, editors, camera operators and technicians in 200 bureaus worldwide
- 150–200 stories per day, each running approximately 2–3 minutes
- Updated news throughout the day, seven days per week, with additional live coverage of key breaking news
- Regional feeds available for Asia, the Subcontinent, Europe, Central & Eastern Europe, the Middle East and Latin America
- Natural sound video, supplemented by detailed scripts and shot-lists
- 24/7 Helpdesk
