posted every business day*

2010 ENHANCEMENTS

THOMSON REUTERS

LAUNCH – 2010

- ***Thomson Reuters Drug News*** (formerly DailyDrugNews.com) launch date: June 2010.
- Delivering the same drug R&D news you expect, but with easier navigation and enhanced integration.
- ***Thomson Reuters Drug News*** brings new features and content, including enhanced email alerts and news items on biomarkers linking to the Biomarkers Module within *Thomson Reuters Integrity*.

FEATURES

- **News**

- Browse news by broad or narrow therapeutic area classifications.
- Filter by custom date ranges to explore full news archive of 92,000 records.

- **Conferences**

- Browse or search within our extensive conference archive.
- Filter by custom date ranges and see other editions of the same conference.

- **Customizable E-mail Alerts**

- Select the subject therapeutic area classifications that match your interests.
- Choose format and frequency of updates.

- **RSS Feeds**

- Receive news titles in a feed to your desktop or laptop computer.

Octapharma launches Wilate for von Willebrand disease

Mon May 17, 2010 | Section: Hematological & Blood Coagulation Disorders

Wilate(R), Octapharma USA's replacement therapy for von Willebrand Disease (VWD), is now available from authorized distributors. The FDA approved Wilate(R) for the treatment of spontaneous or trauma-induced bleeding episodes in patients with severe VWD, as well as in patients with mild or moderate forms of the illness in whom the use of ...

[Boehringer Ingelheim discloses novel 11beta-HSD1 inhibitors](#)

Research at Boehringer Ingelheim led to the discovery of novel urea derivatives of substituted nortropanes as **11beta-hydroxysteroid dehydrogenase type 1 (11beta-HSD1) inhibitors** that are reported to be useful for the treatment of diabetes type 2, obesity and dyslipidemia. A representative compound at 1 mM inhibited 11beta-HSD1 activity by 59% compared with carbenoxolone in human liver microsomes (WO 2010046445).

WHAT IS RSS?

RSS is commonly thought to stand for Really Simple Syndication. It is a simple way of distributing frequently updated content.

Our RSS channels allow you to see when we have added new content to the site, without having to visit the site. The channels include news headlines, which are linked to the full text articles within the site.

HOW DO I GET RSS FEEDS?

Your browser should be able to read our RSS channels.

HOW DO I START RECEIVING RSS FEEDS?
