9 Account Location Detail formerly was set up with a billing summary or billing detail layout, and is now conveniently shown in a single, easy-to-read layout. Each location will be separated and will show a Location Total. Each location will have a breakout detail of Subscription Charges, and where applicable, Out of Plan Charges.

10 Product charges now listed alphabetically. Products will no longer be separated into subsections for different product types.

11 Each product will show individual service dates for the charge. If your service stopped or started mid-month you will see the adjusted date range of the charges along with message: "The charge reflects a prorated amount and not a full month's charge."
