Signing Transcripts Electronically (Digital Signatures)

Electronic or digital signatures often refer to signing your name electronically on a computer form using a mouse. In E-Transcript Manager, a digital signature instead refers to a method for authenticating that a transcript was created electronically on a certain date, by a certain person, and that measures have been taken to protect the authenticity of the transcript. To sign a transcript digitally, you must be enrolled in E-Transcript Signatures and connected to the Internet.

Enrolling in E-Transcript Signatures

- Go to <https://my.reallegal.com/>
- Log in with your user ID and password (click on Create a RealLegal Account if you don't have one and enter the User profile information, then Save). **NOTE:** Remember to create user ID (i.e., first initial of name and last name) and a password you can easily remember when digitally signing your transcripts. If you had an account in the past and cannot remember, do not create a new one. Contact us and we can help: 800-290-9378, say RealLegal when prompted for a product.
