

# BARCLAYS OFFICIAL CALIFORNIA CODE OF REGULATIONS

## HISTORY

For over two decades, Barclays has been making a commitment to you! It is a lot of work to produce and maintain a verifiably accurate, complete and current publication, and something we take pride in! We believe that as the State's official publisher of the CCR that it is our duty to ensure you.

## INITIAL CODE

The CCR is split into over a hundred different product units so you are able to pick only the information you want. A product's initial code provides you with the most current regulations available.

## 1-YEAR SUBSCRIPTION

Due to the immense amount of amendments, your CCR may become outdated. Ordering the 1-year Subscription will provide you with all regulatory amendments to your product for one year beyond the date of your Initial Code order. Having access to these amendments is the only sure way to be on top of the hundreds of changes each year. Barclays can deliver these amendments straight to your doorstep, and this is one less burden on you. (Please note that a 1-Year Subscription service may only be ordered with a corresponding Initial Code.)
